

## Summer targets for reading in Year 5

Continue to join in discussions about books and give reasons for your opinions. Ask helpful questions to improve understanding of a text

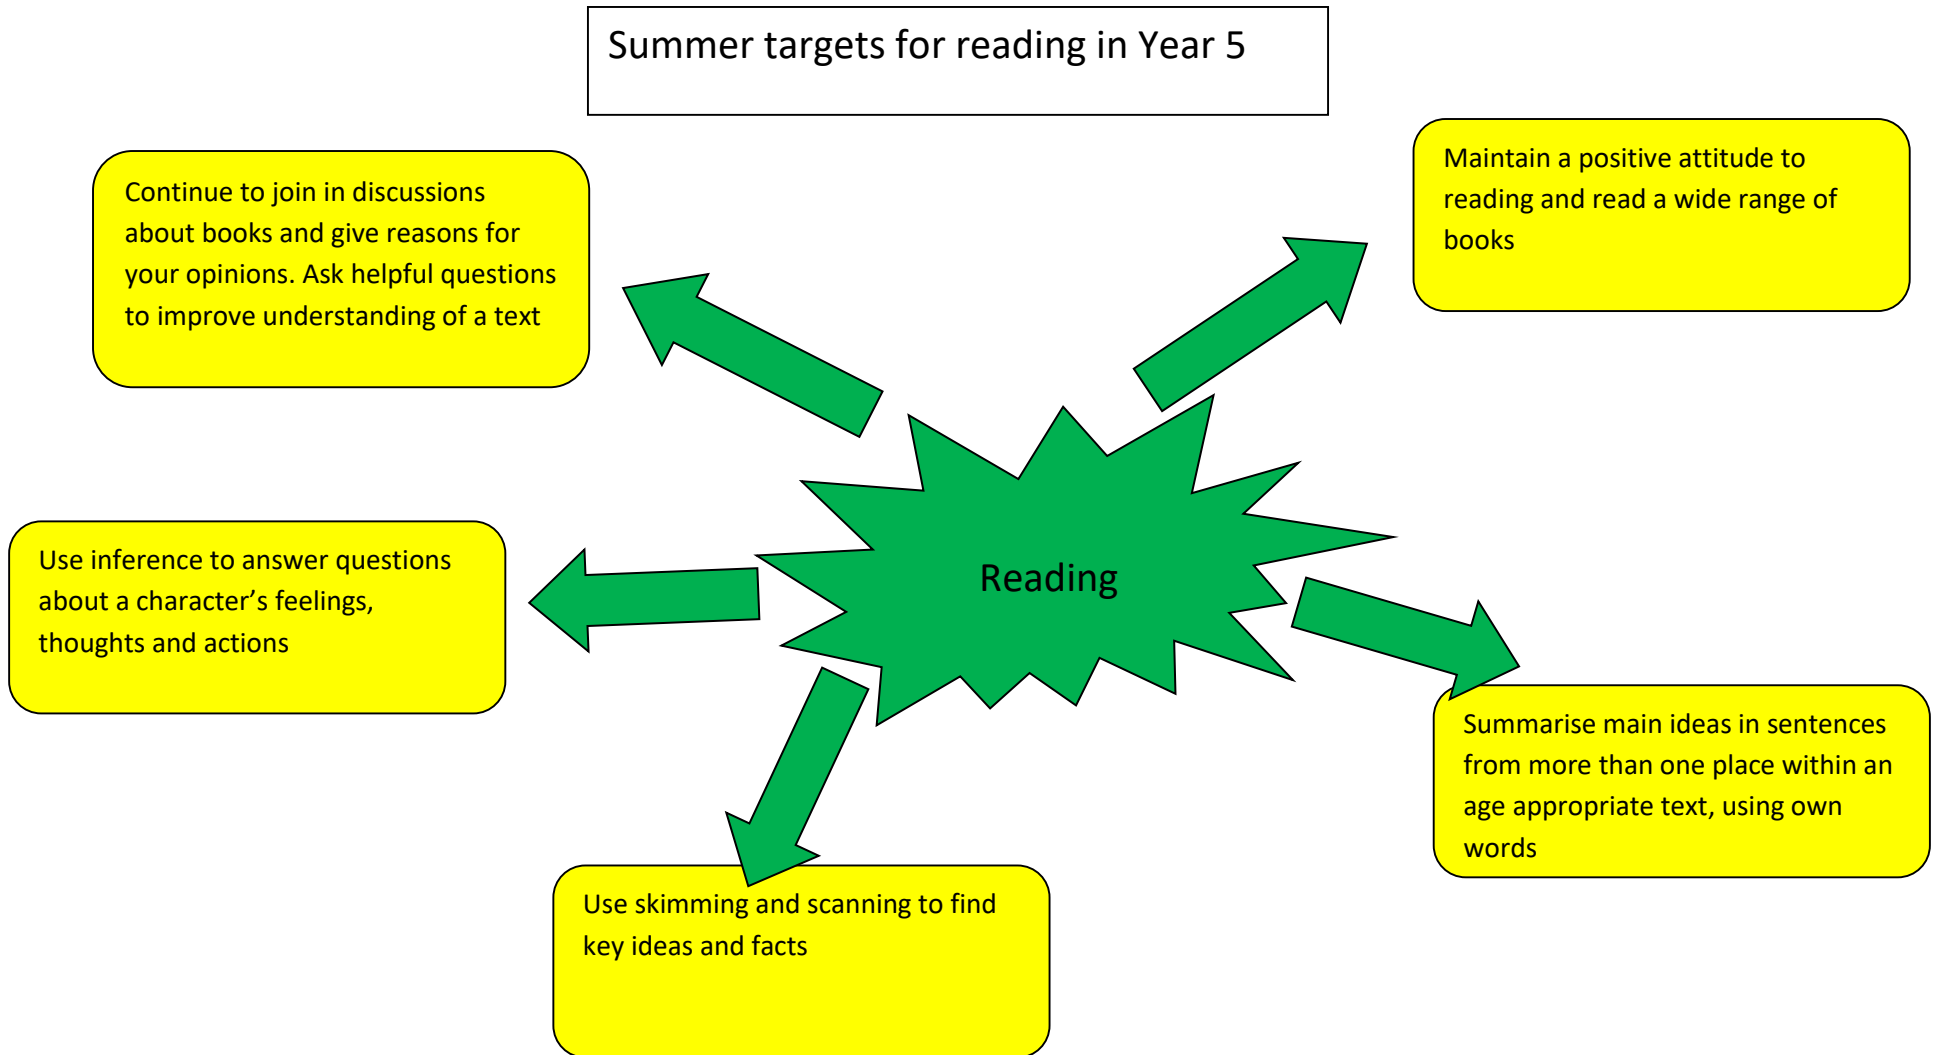

Maintain a positive attitude to reading and read a wide range of books

Use inference to answer questions about a character's feelings, thoughts and actions

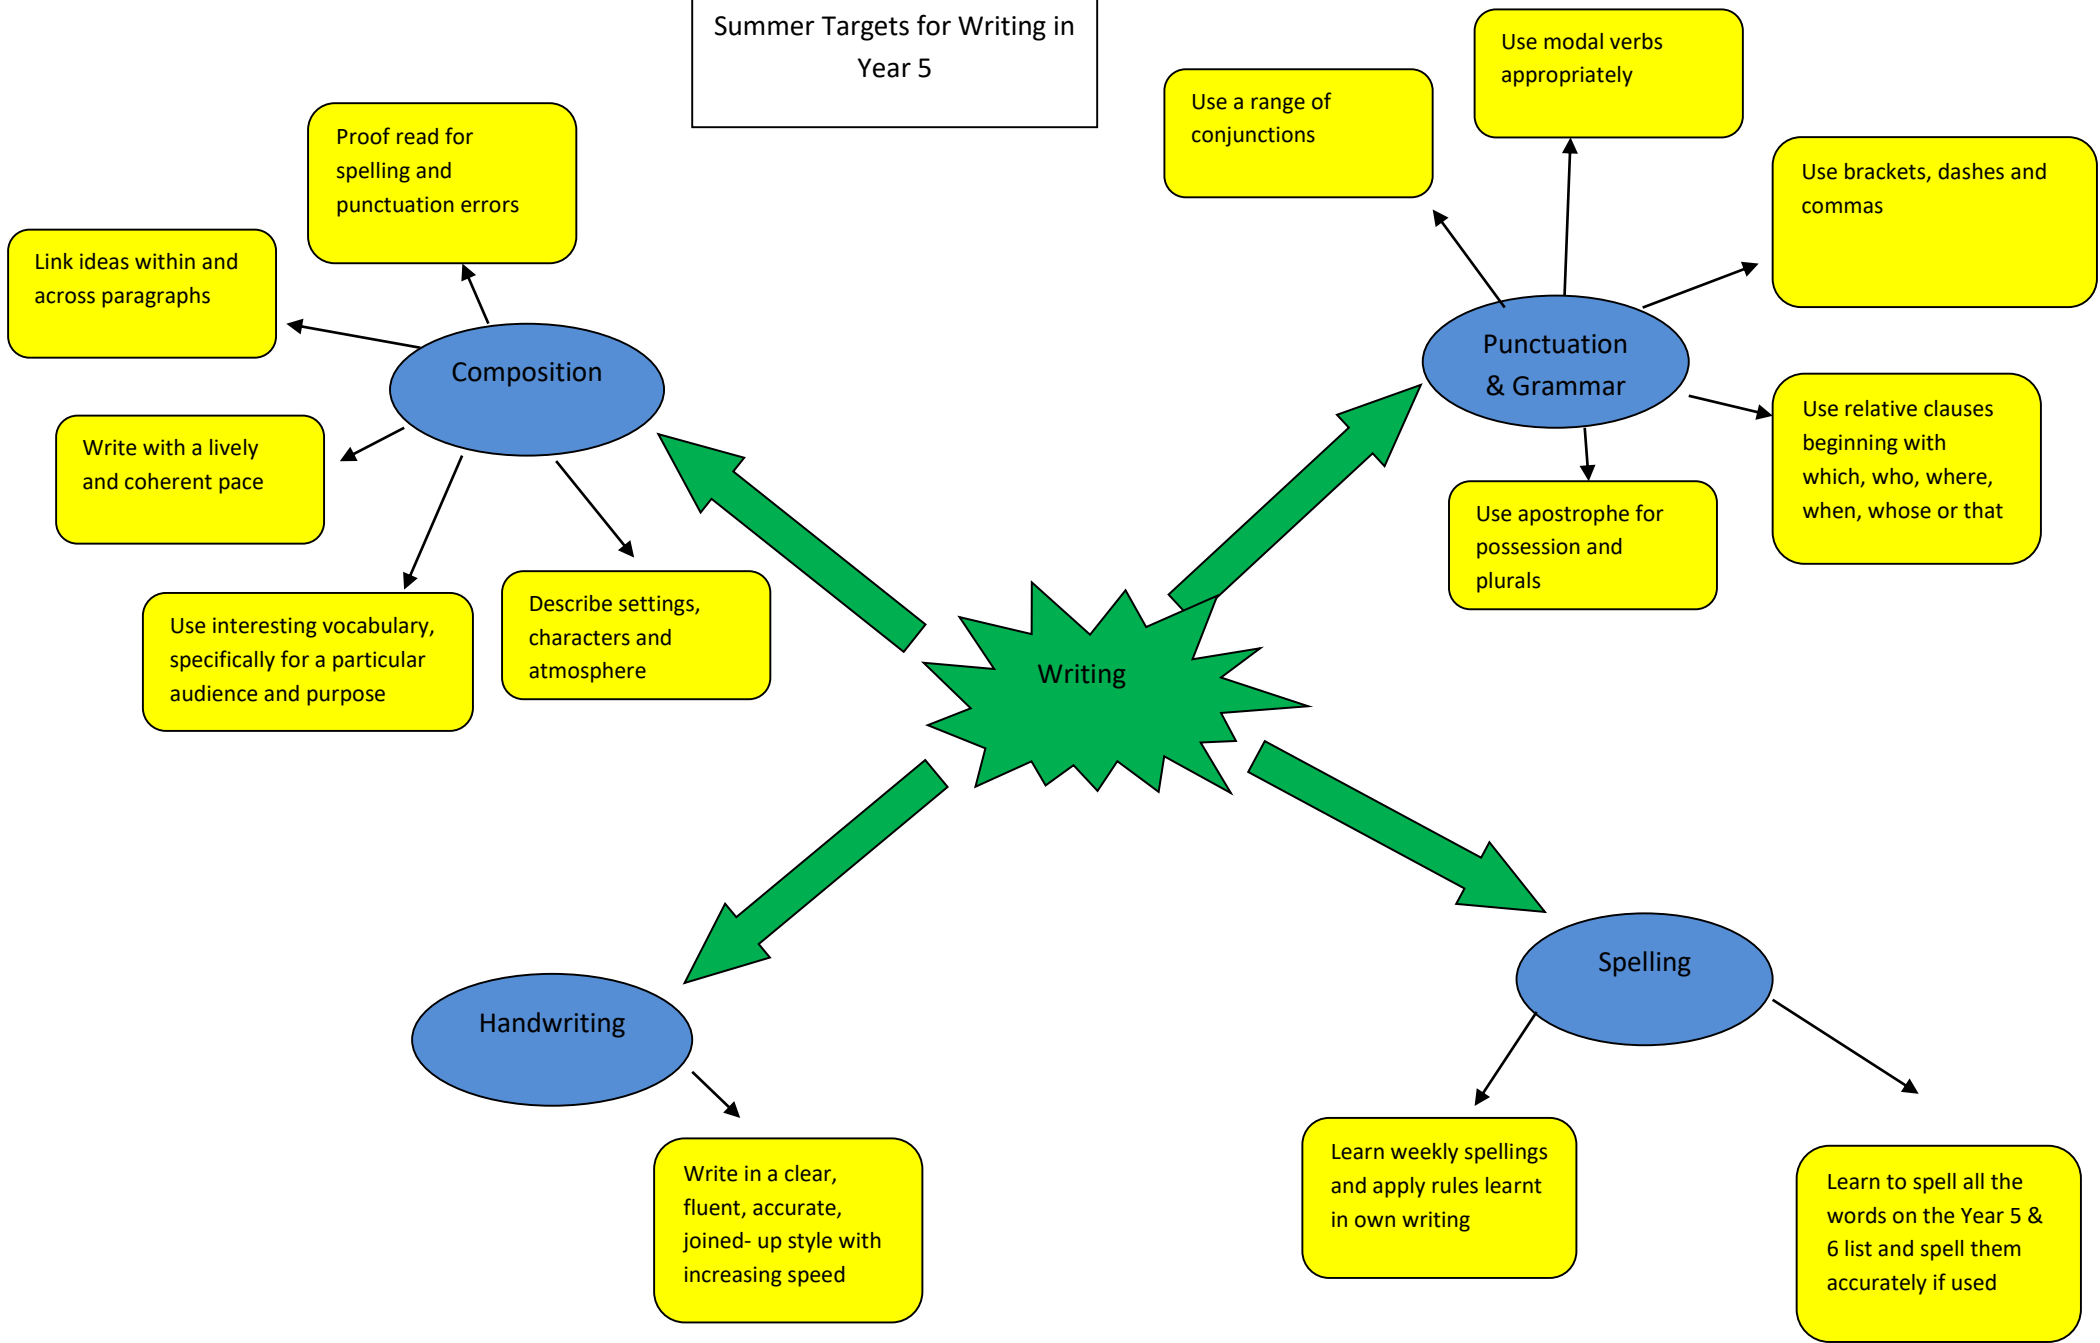

Reading

Summarise main ideas in sentences from more than one place within an age appropriate text, using own words

Use skimming and scanning to find key ideas and facts

Summer Targets for Writing in Year 5

Summer Targets for Maths  
Year 5

Read Roman numerals to 1000 and recognise years written in Roman numerals

Know if a number up to 100 is prime and recall prime numbers up to 19

Learn all times tables facts and continue to progress through the weekly 'tables' sheets

Multiply proper fractions by whole numbers supported by diagrams

Solve multi-step problems using all four operations

Read, write, order and compare numbers up to three decimal places
